SMPTE Lemo or Neutrik Hybrid Connector

ORH for Mini

ORH-Mini allow to ADD power transport capability over Hybrid Cable to Mini, typically the SMPTE 311.

Up to 4 Mini-CCAs may be connected to a single ORH
Mini CCA must be equipped with the same hybrid connector type.

ORH for DUO

With ORH-DUO is possible to centralize the Hybrid connections in a single RU that may be positioned in the OB-Van Path-bay area simplifying cabling and reducing costs

Up to 6 DUO-CCAs may be connected to a single ORH

ORH for PoP / PoP+

With ORH-PoP is possible to centralize the Hybrid connections in a single RU and allow standard PoP (non PoP+) units to be used on regia side

Up to 4 PoP/PoP+ pairs may be connected to a single ORH

PoP+ must be equipped with the same hybrid connector type.
